

Hands-on Course in Data Analysis for Proteomics

9th June, 2021

I edition

- **Data Analysis in Proteomics**

Cytoscape Software Platform
ClueGO - StringApp
Reactome and KEGG databases

- **Module I – Bioinformatic tools tutorial (2h).**

A step-by-step personalized tutorial class with a model proteomics dataset (dataset I).

- **Module II – Practical exercises (2h).**

A step-by-step guided tutorial class with a model proteomics dataset (dataset II).

Registration fees: 300€*
